Dear [REDACTED],

Further to our previous correspondence regarding your request for the following information:

** A copy of a document, book or manuscript, consisting of several chapters authored by multiple individuals, titled "Operation Buffalo" and edited by William Penney. It was originally proposed for publication by the Ministry of Supply, but was never published and I believe has been transferred to AWE for its historic archives.*

** A copy of a document, book or manuscript, consisting of at least 7 chapters, titled "Damage from Atomic Weapons", edited by Derrick Garrard of the Ministry of Technology, and published as a classified document by the Ministry of Supply in 1958. Again, I believe it has not been published and was transferred to AWE.*
